

CHICAGO WEEK 2023
FEBRUARY 25 - MARCH 4
MAMMOTH MOUNTAIN, CA

<https://www.mammothmountain.com/mountain/trail-map>

Situated about 330 miles from San Francisco and 310 miles from LA, Mammoth Mountain Ski Resort boasts the highest summit elevation in the state of California at 11,053 ft. It also averages an impressive 400 inches of annual snowfall for one of the longest ski seasons in the state that can sometimes last well into the summer as late as July and August, weather permitting. Located in the southwest corner of the volcanic Long Valley Caldera on the eastern edge of California's Sierra Nevada Mountain Range, Mammoth Mountain lives up to its name by offering more than 3,500 skiable acres and a 3,100 ft. vertical drop.

Free public transportation connects the mountain's three base lodges, as well as social hubs at The Village and Old Mammoth Road. Each base lodge is home to ticketing, rentals, ski school, day care, retail shops and restaurants.

MOUNTAIN FACTS
